TRANSGENIC PRODUCTION OF ANTIBODIES IN MILK

Attorney Docket Number: GTC-1-D3

Mail Stop AF Commissioner for Patents P.O. Box 1450 Alexandria, VA. 22313-1450

REPLY TO OFFICE ACTION AND AMENDMENT

Madame:

This Amendment is being filed in response to the Office Action dated December 17, 2002 in connection with the above identified application, please enter the following amendments to the above-identified application. A Response to the December 17, 2002 Office Action is due March 17, 2003 according to the shortened statutory period of three months established by the Examiner in compliance with 35 USC § 133. With the filing of a Petition for a three-month extension of time herewith, this Amendment is being timely filed.

IN THE CLAIMS:

19. (Twice Amended) A DNA construct for providing a heterologous immunoglobulin in the milk of a non-human transgenic mammal comprising a promoter sequence that results in the preferential expression of a protein-coding sequence in mammary gland epithelial cells, an immunoglobulin protein-coding sequence, a 3' non-coding sequence; and a unique restriction site between the promoter and the 3' non-coding sequence, wherein the immunoglobulin proteincoding sequence is inserted into the restriction site[.]; and wherein said DNA
